Answering The Misconception about polygamy.

First answer:

The experts in the affairs of the Western society noticed clearly that the illegal relationships are very common to the point that a single man practices sex with many women exceeding four and more.

Isn't this called polygamy?

Of course, so we can say that the Western society accepts pluralism, but out the frame of wedlock.

Second answer:

polygamy wasn't an Islamic new invention rather than it existed in the Arabian Peninsula before Islam came to limit and restrict it.

Man, was used to marry more than 10 women, so Islam limited it to four.

The Prophet Muhammad (peace be upon him) ordered his companions who married more than four women "to keep four of them and divorce the rest".

Third answer:

Polygamy isn't permitted by Islam just for lust, but it is a law with rights and duties. So only mature, honest and responsible men can do polygamy. The Almighty God has directed men in the Holy Quran (if you fear that you will not be just, then [marry only] one or those your right hand possesses. That is more suitable that you may not incline [to injustice].) Quran 4:3

Fourth answer :

God has permitted polygamy for many wise reasons as :- any woman may become sick or can't have children. Or her husband may have high

physical sexual strength which might expose him to temptation in the legal excuse (or the period time) for his wife.

Fifth answer:

polygamy isn't confined to Islam as:

1_ Ibrahim peace be upon him as comes in Safar Altakween 29: that he had 3 wives "Sara, Hagar and Kattora".

2_ Yaqoup peace be upon him was married to "Lieya, Rahel and had Zalfa, Palha".

3_ Suleiman peace be upon him as in the Bible "He had 700 wives, princesses, and 300 concubines. And his wives turned away his heart".

4_ If you read "Ramayana" holy Hinduisian book, you will find that "Seih Ram" had had more than wife.

5_ Moreover, in "Mahaharass" charts, Krishna had had (16108) wives.

6_ Although, among the Christian history there were many troops called for polygamy like: Anglicanism, Anabaptist in Germany which called for polygamy until 16 century ,Almarmon was supporting polygamy very much until it reaches (20-30)wives until 19 century , priest Fonester said(513) that who wants to be a true Christian should marry many wives.

Sixth answer:

polygamy is the best solution for the social problems encountered by the western society like America which:

1- has 5 million women more than the number of men, so if every man marries one woman, there will still be 5 million women who can’t get married.

(49.4% =men / 50.6= women) statistics of 2017.

2- has 25 million gays which means that 25 million women more can't have husbands.

(25.6 million homosexuals, about 11% of the total population) 2011 statistics.

3- 93% of the prisoners Gender are males

Seventh answer:

when the Islamic law permitted polygamy, it set many conditions to protect the woman's rights as:

- To be able to equally and justly treat them as narrated in the Hadith of Sahih Ebn Haban by Abo Huraira, from the apostle of God (peace be upon him) which says "Who has two women, then inclines with one of them on the day of judgement he will come with one of his body side inclined"
- To equally divide the nights between them that means he should spend each night with each of them, however, he spends the day working or doing whatever he likes.
- To fulfil their various needs.

Eighth answer:

polygamy has many benefits as:

- Guarding chastity.
- Establishing a new house.
- Having a good offspring.
- Acquainted with a new ancestry.
- Increasing Muhammad's nation.
- Reducing the phenomenon of spinsterhood.
